Campus Innovation Week 2026

Fictional participant information circular - version 1.0 (12 October 2026)

Overview

Campus Innovation Week 2026 is a two-day educational technology event scheduled for **27 and 28 November 2026**. The venue is **Innovation Hall** in the North Quadrangle of the fictional Northbridge Institute of Technology. Participants may attend talks, present prototypes, and take part in a student showcase.

Registration

The **registration fee for general participants is INR 250 per person**. Invited mentors and registered volunteers attend without a registration fee. Participation is open to undergraduate students from any academic discipline. The registration deadline is **20 November 2026 at 6:00 PM IST**. Late registrations are not guaranteed.

Applicants register individually, even when joining a project team. The organizing committee emails confirmation within three working days of receiving a complete form. Registration is complete only after the committee issues a confirmation email.

Where to get help

All fictional event questions may be sent to **events@example.org**. Participants should include their registration number when requesting assistance. For accessibility arrangements, attendees should contact the organizers by 18 November 2026.

Document classification: publicly shareable, synthetic teaching material. No personal information appears in this example.

Program and Showcase

All session times are in Indian Standard Time (IST).

Friday, 27 November 2026

09:00 AM: Registration desk opens in Innovation Hall. **10:00 AM:** Opening remarks. **11:00 AM:** Prototyping workshop. **02:00 PM:** Lightning talks on accessibility and responsible AI. **04:00 PM:** Team collaboration session.

Saturday, 28 November 2026

09:30 AM: Project demonstrations begin. **12:30 PM:** Lunch break. **03:00 PM:** Final project showcase in Innovation Hall. **05:00 PM:** Winners announced and closing ceremony begins.

Showcase eligibility

Showcase entries may be software, hardware prototypes, or research concepts. Projects must have a student team of two to four members. Each team may submit one entry. Teams must upload a 150-word summary by **23 November 2026**. This summary deadline is separate from the registration deadline.

Judging criteria

Each entry is evaluated for **technical clarity (30%)**, **practical relevance (30%)**, **originality (25%)**, and **presentation quality (15%)**. These percentages describe the total scoring rubric. The review panel may ask each team up to three questions.

Awards

Three demonstration awards are planned: first place INR 5,000, second place INR 3,000, and third place INR 2,000. Awards are fictional and have no monetary validity outside this example.

Participation Rules and Policies

Withdrawal and refunds

A participant who withdraws on or before **20 November 2026** may request a full refund, subject to identity verification. **Registration fees are nonrefundable after 20 November 2026**. Invited mentors and registered volunteers do not pay registration fees, so refunds do not apply to them.

Attendance and team rules

Participants must carry a valid student identification card for entry. Project teams must include between two and four students. A team member may represent only one project in the final showcase. The organizers reserve the right to move a presentation to another slot if there are safety or scheduling concerns.

Responsible demonstration

Demonstrations must use lawful and responsibly collected data. Projects must not expose real passwords, private student records, or confidential institutional information. Wireless hardware may only be operated in the designated demonstration area.

Additional facilities

Drinking water and a basic first-aid desk will be available near the entrance. Lunch is not included in the general registration fee. The circular does not specify any parking arrangements or parking charges.

Changes to the program

If the published schedule changes, the organizing committee will update the event notice and email confirmed participants. The organizer-approved circular, rather than informal messages, is the authoritative source for the event policies.

End of synthetic example. This sample is intended solely for demonstrating document retrieval, citation display, and unsupported-question handling.
